

Ledgewood Beach Water District

Monthly Minutes

Meeting date: January 19, 2015

A meeting was called by President Shellenberger to consider estimates from contractors regarding replacement and repair of the Pinecrest well. The meeting announced and scheduled to be held on January 19, 2015 at 9:00AM at the Newell Firehouse.

The meeting was called to order at 9:00AM by Commissioner Shellenberger

Commissioners present: Shellenberger, Gladhart & Young

Public attending: none

Estimates for repair and or replacement of the Pinecrest well have been received by:

R&H Drilling (Ryan Harris)

Island H2O (Jeff Brellein)

Dahlman Pump and Well Drilling (Scott Fowler)

The estimates, availability of contractors and comparability of services and prices quoted were reviewed and discussed. It was agreed by all commissioners that we ask R&H Drilling and Island H2O to refresh their work estimates so that we may consider similar and specific work estimated versus costs and prices.

The fire hydrant near 1776 Fircrest was damaged on December 19, 2014 when a Rat Pack Moving and Storage driver backed into the hydrant during pickup of a storage pod. Moch construction and R&H Drilling have been asked to consider the repair.

Meeting adjourned at 9:23AM

Chadwick Gladhart, Secretary
